

WALL/ROOF MOUNT WITH ADJUSTABLE STRUTS

SPECIFICATIONS

- Available with Mast Sizes 1-5/8" through 2-3/8"
 - Materials - All steel construction. Each component and fastener is coated to meet stringent industrial corrosion protection. Special coating are available for even greater protection.
- Strut length adjusts from 24" to 36" for a wide range of installation options.
- Fixed strut kits also available.
- Mounting Options - Wall, Roof, Gable and many other configurations are possible. Easily accommodates 16" or 24" joist/stud spacing. Packaging - Single packs and quad packs can ship individually or palletized.

GROUND POLES

SPECIFICATIONS

- Sizes available
 - 1.9" OD X 72" long
 - 2.0" OD X 72" long
 - 2.375" OD X 72" long
 - 3.0" OD X 72" long
- Weight – Depends on diameter and gauge of ground pole.
- Material – Galvanized Steel (various coatings available depending on corrosion requirements).
- Mounting – 6' overall length, for a 3' below ground and 3' above ground installation.
- Options – Swedging to eliminate turning in ground.
- Optional Hardware – Grounding lugs
- Optional Coatings – Powder Coat Paint.
- Packaging – 95 bulk pack or 5 single pack.
- Mounting surfaces included: ground.
- Other Mounts Available – Universal, Roof/Wall and Non-Penetrating Roof Mounts.
